# Wabi-Sabi

## FACT SHEET

This design embraces wabi-sabi: the celebration and reverence for the natural aging of things, and the acceptance of transience and imperfection. Wabi-Sabi was inspired by Clodagh's travels to Porto (a city in Portugal), treading on cobblestones while exploring the winding streets. A pattern that nods to the art of rattan weaving, it's a calming, natural design that creates a beautiful backdrop.
