

Have you considered updating your doors? We've got you covered!

Reatec is a collection of decorative architectural films with over 900 patterns that simulate a wide variety of natural finishes such as wood, metal, stone, and leather. Reatec is the perfect the choice for resurfacing guestroom doors at a fraction of the cost to replace.

Reduce Cost, Save Time, and Transform Surfaces

- ◆ Provides significant cost savings compared to replacing with new doors
- ◆ Existing doors stay in place with clean, quiet, and quick installation – can allow a room to be rented the same day as the installation, with no loss of revenue
- ◆ Upscale doors increase property value and lead to better online reviews
- ◆ Doors last longer and are repairable (conditions apply)

Environmentally Friendly and Sustainable

- ◆ Help minimize the amount of landfill waste
- ◆ Eliminates the need to manufacture and distribute new products

Easy to Clean and Maintain

- ◆ Does not require special maintenance
- ◆ Stain and solvent resistant
- ◆ Abrasion and discoloration resistant

Fire Ratings

- ◆ UL I0B and I0C Certified (Fire Doors and Assemblies)
- ◆ Class A, ASTM E-84
- ◆ IMO (International Maritime Organization) Certified
