

The skin of the sting ray, with its closely packed round beads of calcified nodes, inspired by Jean Michel Frank's richly embellished art deco objects d'art. Evans & Brown use the same technique to create a wallcovering that combines the best of nature with a sleek sophistication that perfectly mimics the sting ray's skin...right down to its spine.

* These decorative metallic wallcoverings should only be cleaned with mild ingredients such as soap, detergent and water. Stronger, more alkaline household cleaners have the potential to damage the surface of the wallcovering along with excessive scrubbing.
