Glint

FACT SHEET

A momentary flash of light seen through clouds or sunlight bouncing off the waves on a sunny day, Glint is a subtle texture with metallic and glitter highlights. The movement of the embossed texture resembles wind-blown sand and water. Glint will embellish any interior with a hint of high glamour.

		US UNITS	METRIC UNITS
Total Weight		20.0 oz. PLY 13.3 oz. PSY	618 g PLM 451 g PSM
