BEAUTIFUL IS ONLY THE BEGINNING

SPECS

Thickness: 0.040" · Sheet Sizes: 47" × 129" | 47" × 95"

PETG (Polyethylene Terephalate Glycol) is a durable, clear thermoplastic sheet material know for impact resistance and printability. It provides a tough, cleanable surface that helps resist scratchesm dents and daily wear while allowing for high quality custom graphics.

FROM VISION TO THE WALL

DESIGN → STRIKE-OFF → MAP → PRODUCE → INSTALL

Korogard helps take custom projects from artwork through installation with prepress support, strike-offs, detailed panel mapping, precision production, labeled sheets and installation documentation.

YOUR NEXT WALL COULD BE ANYTHING
