

Introducing Fusion

Fusion wall protection + digital lab

Fusion combines the unlimited possibilities of the Koroseal Digital Lab with the durability of Wall Protection, allowing you to create almost any image for your walls with the impact resistance needed for wall protection. This state-of-the-art product fuses together digital imagery and rigid wall protection sheets — giving your digital image unmatched clarity, cleanability and durability.

You can choose to create your own digital pattern, scale or recolor one of our standard digital designs, or select from millions of stock images. Fusion offers you complete design freedom to express your vision and the assurance that your interior space will last for years to come.
