

Description

Nu-Vu-Rite™ is a multi-purpose presentation wallcovering that combines the features of a high-quality projection screen with the advantages of a large, seamless writing surface. Engineered with a patented bi-directional lenticular embossed vinyl, it provides superior projection, plus wide-angle viewing with virtually no image fall off. Top film enables the use of dry erase markers.

Features

- Seamless projection and writing surface
- Patented bi-directional lenticular embossed vinyl
- Accepts dry erase markers and projection images, even in ambient lighting
