# WALLTALKERS®

Brainstorm, design, collaborate, create: Walltalkers dry-erase and tackable surfaces make it easy to express your design vision. Walltalkers offers a virtually seamless solution – from wall-to-wall and from floor-to-ceiling. Walltalkers invented the first of these surfaces more than 25 years ago, and we are continuing to create modern solutions for collaborative spaces. With multiple writable, projectable, magnetic, and tackable options, users can unleash their best, most innovative ideas.

COLLABORATION IS THE WAY WORK HAPPENS TODAY, AND IT'S HOW WORK IS SHARED WITH OTHERS, TOO.

Colleagues work together to **develop** concepts for new products. Musicians in a studio **innovate** a new arrangement for one of their songs. A coach and his staff **brainstorm** strategy for the season ahead. Their vision can come to life anywhere, from classrooms to conference rooms, from offices and locker rooms to hospitals, retail spaces, and think-tanks.

Walltalkers products are flexible and adapt to their environments, allowing easy interaction in beautiful, custom interiors. **They provide the canvas, sketchpad, and drawing board for changing the world.**

Think-tanks, start-ups, and agencies

# CHOOSE YOUR USE

WRITE, PROJECT,  
MAGNETIZE,  
OR DO IT ALL

**Projected** images are seen in flawless resolution on high-performance surfaces. Brainstorming, formulating, solving and pitching is scribbled out on **writable**, erasable, semi-gloss surfaces. And charts, images, and anything else a magnet can handle clings to our highly attractive **magnetic** receptive surfaces. From wall-to-wall and floor-to-ceiling, Walltalkers delivers exactly what you're looking for.

# FLEXIBLE INSTALLATION

Wall-to-wall. Floor-to-ceiling. Framed or unframed. Overlapping functions. **Walltalkers enhance any interior environment**, with the choice of design expression entirely yours. You can have just about anything, just about anywhere.

If you aren't sure of all the ways you can install Walltalkers, collaborate with your local sales representative to find the perfect solution. Because there always is one.

## WRITABLE

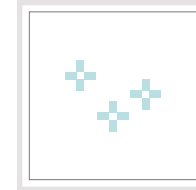

*Share ideas. Solve problems. Teach, and learn* – all on our writable, re-writable surfaces. High-quality, high-performance Walltalkers top film provides uniform coverage with a clean, bright surface for excellent readability and eraseability. And while all Walltalkers are writable, these are our core styles suitable for writing. That means an inexpensive, wall-to-wall, floor-to-ceiling solution that takes communication and collaboration to new levels of clarity and success.

*EZ-Rite®, Just-Rite® 60, and Koro-Rite® products meet the California Indoor Air Quality Specification (CA-IAQ 01350).*

# WRITABLE + PROJECTION

A Walltalkers collaboration space can do “double duty”, and take a project from formulation to presentation, too. Our **writable projectable** surfaces offer clean, virtually seamless solutions for generating ideas and hashing out details in a meeting, a classroom, a studio, or anywhere creativity happens. And for projecting ideas or showcasing a finished concept, our writable projectable products deliver high-definition, non-glare surfaces for wide-angle “wow.” All of it wall-to-wall, ceiling-to-floor – even around curves and all on one surface.

A selection of widths are available  
Nu-Vu-Rite™, Project-Rite™, and Matte-Rite™ products meet the California Indoor Air Quality Specification (CA-IAQ 01350).

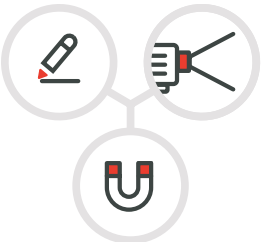

# WRITABLE + MAGNETIC

If a picture is a worth a thousand words, then our **magnetic** receptive surfaces add volumes to what you want to say. Put anything a magnet can hold right on a Walltalkers wall to enhance a presentation, tell a better story, or let brainstorming run wild. And after scribbling away on our bright, writable surfaces – erasing and re-writing along the way – make your presentation even more “magnetic” with images, maps, pictures, and color swatches.

# WRITABLE + PROJECTION + MAGNETIC

Write a few ideas down on one of our walls. Write a few more. Project a video to get the team going. Put up some images and inspirational tear sheets as the ideas get fleshed out. When collaboration calls for **writable**, **projectable**, and **magnetic** receptive surfaces in the same space, Walltalkers comes through with all three. All you have to do is choose the way that works best for your interior solution.

# ALUMINUM ACCESSORIES

## STANDARD ALUMINUM TRIMS

ALUMINUM  
SNAP-ON TRIM

Available in 1-1/4" and 1-3/4" widths

ALUMINUM  
J-CAP TRIM

Visible width of 1/4"

*Standard Aluminum Trims are available in 4', 8', and 12' lengths in Satin, White, and Black.*

## QUANTUM ALUMINUM TRAYS

SILVER QUANTUM

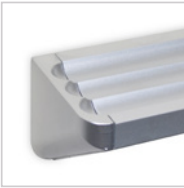

WHITE QUANTUM

BLACK QUANTUM

*Quantum Aluminum Trays are available in magnetic or mechanically fastened options in 18", 36", and 48" lengths.*

## STANDARD ALUMINUM TRAYS

SATIN TRAY  
ALUMINUM END CAP

SATIN TRAY  
PLASTIC BOX END CAP

*Standard Aluminum Trays are available in 4', 8', and 12' lengths in Satin, White, and Black.*

WHITE STRATUM

*Stratum Aluminum Trays are available in Silver, White, and Gold with plastic box end caps in 18" lengths.*

# ALUMINUM ACCESSORIES

## SHELF CADDY

SILVER CADDY

WHITE CADDY

BLACK CADDY

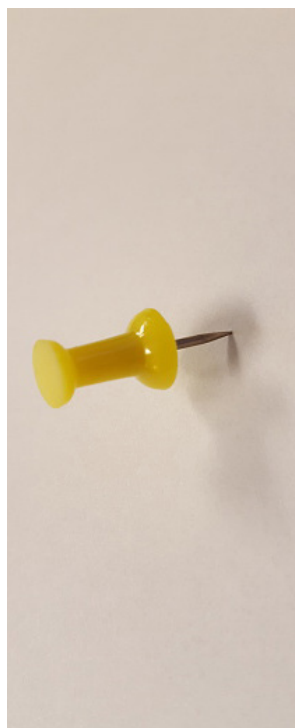

*Shelf Caddies are available in magnetic or mechanically fastened options.*

## WALLTALKERS STARTER KIT

*The Walltalkers Starter Kit includes:*

- eight markers
- 8 oz. spray bottle of liquid cleaner
- one empty 8 oz. spray bottle for water
- one dry-erase microfiber cleaning cloth
- two microfiber erasers
- one care and maintenance decal
- installation instructions

Order individual erasers, cloths, cleaners, and markers to meet specific needs.

# TAC-WALL®

by Koroseal

Walls, doors, partitions, panels, and room dividers can be much more than one might expect. Tac-Wall turns them into decorative and functional spaces quickly and economically. It's a colorful linoleum/cork wallcovering that's self-healing and exceptionally resilient, resistant to cracking, drying, or peeling. It's biodegradable and hygienic, too. And because Tac-Wall is washable, it looks new even after years of use.

				
04 stone	06 harbor	07 aztec	08 earthen	09 onyx
				
10 gypsy	11 cayenne	12 citrine	13 botanical	14 deep sea
				
62 pewter	66 suntan	82 quarry	86 acorn	87 sandalwood

## FEATURES

- tackable, durable, and washable
- biodegradable, hygienic, and bacterial resistant
- self-healing from thumbtack and pin punctures
- alternative to bulletin boards or cork tiles that can crumble and deteriorate

42% of Tac-Wall is manufactured with **pre-consumer recycled** content and more than 87% is made from **rapidly renewable resources**.

**Surface Finish:** smooth matte finish  
**Colors:** 15 Tackable Colors  
**Backing:** Jute / Burlap provides excellent adhesion and dimensional stability

**Width:** 48" (122 cm) flexible rolls  
**Length:** ± 92 lin. ft. (29 m)  
**Approx. Weight:** 8.22 lbs./yd² (3.73 kg/m²)  
**Thickness:** 0.25" (6 mm)

*All Tac-Wall® products meet the California Indoor Air Quality Specification (CA-IAQ 01350)*

# KEY FEATURES

## High Quality

Walltalkers products are made with the highest-quality materials and use a meticulous lamination process to ensure 100% uniform coverage of the vinyl substrate.

The key to this process is laminating with our high-performance dry-erase film, which creates a surface that is exceptionally resistant to stains, impervious to solvents, and measurably more durable than inexpensive coatings and paints. That means no thin spots or “pin-holes” on the surface to let ink, stains and solvents penetrate and discolor.

## Superior Durability

Our insistence on quality materials and processes results in a product that looks better and lasts longer for you. Walltalkers uses only the highest-quality materials to ensure our surfaces maintain their flexibility and performance without cracking, chipping, peeling, or deteriorating, even under daily use.

## Easy Maintenance

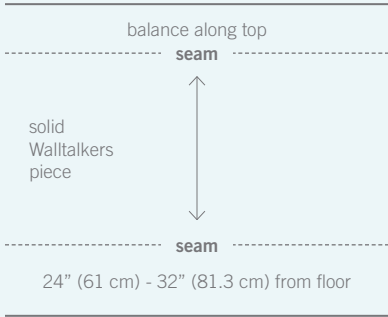

All it takes is simple care to preserve and protect the beauty and performance of a Walltalkers surface. Typical dirt and stains can be removed by simply wiping with a damp cloth or sponge and a mild soap or cleaner. Tougher stains can be tackled with more powerful cleaners. Unlike other wallcoverings, Walltalkers products are impervious to most chemical solvents that can break down, discolor, and even deteriorate surfaces.

Walltalkers recommends specific markers for optimum performance, and marking can be left on the surface for as long as needed. Removal is always easy and complete because our products are exceptionally stain-resistant. They won’t discolor even if they come in contact with things like permanent markers, crayons, coffee, lipstick, ketchup – even wine.

## Simple Installation

Walltalkers collaboration surfaces come in flexible rolls and install like most commercial wallcoverings. Simple instructions guide installers through the process of applying Walltalkers products to a clean, smooth, sealed surface.

Horizontal seams are recommended when installing Walltalkers. For virtually invisible seams and 100% use-able presentation surfaces floor-to-ceiling and wall-to-wall, we recommend double-cutting all seams and railroading the vinyl (see diagram) to ensure color matching.

**PRIOR TO USING all Walltalkers products should be washed with an ammonia or alcohol-based cleaner or mild soap and rinsed thoroughly with water.**

## 5-YEAR Warranty

Walltalkers wallcoverings are warranted for **5 YEARS** not to crack, chip, check, or peel; to resist staining and yellowing; and to show no appreciable fade when properly cleaned and maintained and used with the appropriate dry erase markers.

## Low Emissions

Most Walltalkers products meet the **California Indoor Air Quality Specification 01350**.
