

Starla Stria is a design inspired by a true classic - linen - the highly prized fabric of the ancient world. And like the fabric - a symbol of light and purity - Starla Stria exhibits an exceptional coolness interpreted on a proprietary metallic media. With a nod to its progenitor, this design's crisp lines and unique fusion of colour "threads" is completely modern and totally conducive to integrating with other decorative elements in a space. Available in an enlightened colour palette, Starla Stria can be appreciated in hues from gossamer grey, spider web white and flaxen gold to fawn fur brown and mid-day's haze blue. Starla Stria - a breath of "fresh" to enliven any interior space.
